

Name:_____ Date:_____ Country:_____

Use the CIA world book web-site:

<https://www.cia.gov/library/publications/the-world-factbook/> to display facts about human population in the world. Can you show if a country is healthy or unhealthy? Developed or undeveloped? Try focusing on these 10 factors from the “People and Society” section:

1. Population
2. Age Structure (healthy = 2/3 in the age category 15-64, and the remaining third split between youngest and oldest ages)
3. Population Growth Rate
4. Birth Rate
5. Death Rate
6. Net Migration Rate
7. Infant Mortality Rate
8. Life Expectancy at Birth
9. Literacy Rate
10. Type of Government (found in the next section, “Government”)
